

S530D

Photo Printer

Quality Borderless Prints from Your Digital Camera.

- Up to 14 ppm black/up to 10 ppm color
- 4" x 6" borderless prints in less than a minute
- Print photos directly from digital camera memory cards
- Up to 2400 x 1200 color dpi
- Easy-PhotoPrint* and Exif Print: smart photo processing of digital camera images

High-quality photos and laser-sharp documents. Fast.

Searching for the one printer for all of your personal printing needs? The Canon S530D Photo Printer is the ideal solution, featuring an unmatched combination of high-quality photo and text printing. For laser-sharp text, a true pigment-based ink ensures deep consistent black. Print photos directly from select Canon PowerShot digital cameras or produce digital prints from your digital camera's memory card** Photo prints are stunning with up to 2400 x 1200 dpi resolution, and photo-lab quality 4" x 6" borderless photos can be delivered in less than a minute. When printed on Canon Photo Paper Pro, your favorite photos will retain their brilliance for approximately 25 years†

Advanced printing technologies for better color reproduction at faster speeds.

The S530D printer features several Canon breakthroughs to create virtually unrivaled performance. *Advanced* MicroFine Droplet Technology™ dramatically improves resolution and detail through a revolutionary nozzle system that ejects consistent prescribed-volume droplets in ultra-fine sizes with remarkable accuracy. Precision Color Distribution Technology features an exclusive symmetrical print head design to virtually eliminate color variance and banding problems typically found with conventional high-speed, bi-directional printing.

Easy-PhotoPrint* software and Exif Print: smart photo processing of digital camera images.

The S530D printer supports Exif 2.2 (Exchangeable Image Format File), a new worldwide standard for higher quality digital photos. The S530D printer with exclusive Easy-PhotoPrint software delivers the potential of Exif Print—and more. When an Exif compliant digital camera captures a photo, important camera settings and shooting conditions are saved in the JPEG image file. Simple-to-use Easy-PhotoPrint analyzes the recorded data then automatically adjusts printer driver settings for optimum image processing. The result: digital photos that are more likely to match the photographer's true intentions.

* Windows only.

** For information on compatible memory cards and adapters and a listing of the select Canon PowerShot digital cameras featuring Bubble Jet Direct Printing, visit www.canon.com/consumer/techsupport.

† Based on Canon Inc. studies using Canon Photo Paper Pro, under glass, utilizing industry-standard lighting conditions and controlled temperature and humidity. Results may vary based on individual environmental factors. See www.usa.canon.com/consumer/lightfast for details.

TRUE HARMONY
IN A DIGITAL WORLD.
